

# ICELAND 2009!

For five days over the Easter Holidays, Laurence Jackson School Geography Department took 38 Year 11 students to Iceland for the experience of a lifetime!

Our journey started in the early hours of the morning on Sunday 5<sup>th</sup> April when we all met in the bus lane at the front of school. We drove to Heathrow airport then flew to Reykjavik and headed straight to the Blue Lagoon for a relaxing dip in the geothermal waters.

The next few days saw us visit spectacular waterfalls, breathtaking beaches and some of the most unique landforms the world has to offer. We also travelled onto a glacier and went Icelandic horse riding.

The trip was a fantastic opportunity for students to experience the topics we have studied at GCSE in a real-life context. Upon returning to the UK everyone agreed that it had been a fantastic trip and the best way to kick-start their revision.

We thank Miss Henderson for organising the trip ably supported by Mrs Demoily, Mr Featherstone and Mr Parkin.

Iceland 2010 is already booked.....roll on Reykjavik!
