Let's Get Cooking is a national network of cooking clubs for children, families and communities. Its aim is to get children, their parents and the wider community cooking 'good food that is good for you!'

LJS hosted the first training session for a club for this area during February. Staff from 15 schools in the local area attended the event and were given tuition in running a club and given the opportunity to practice their cookery skills. It was a vibrant and hectic two day event when delegates made scones, curries, stir fries, muffins, salads, soups and sandwiches.

A further event is planned in March when the trainees will attend a 'Start Up Day' with children and parents/ carers from the local area who can get involved with the club by making a wide variety of dishes.
