

The Young Americans are coming back!

The 'Young Americans' International Outreach Tour will be arriving at LJS on Thursday 25 March to spend three days working with students across full age range, teaching voice, movement, performance and self confidence building

towards a musical extravaganza which promises to be a truly memorable experience! The 'Young Americans' (a group of 40+ young graduate teachers) will perform a special first act and together with the students, combine for an exciting Act Two.

Up to seventy primary school pupils will have the chance to take part, together with 150 students from LJS. No previous experience is necessary – just a commitment to the project, an interest in the performing arts and endless energy and enthusiasm!

Last year there were tears as students said their final goodbyes and had their performance t-shirts signed by our American visitors. After an awe inspiring performance by both the Young Americans and Guisborough students, which raised the roof of the sports hall, the audience gave a standing ovation. This year promises to be even better so look out for more details of how *you* can be part of this fantastic experience.
